NEW SHOP

Welcome to the first newsletter for "Shop China"

Shop China was officially launched on the 25th November 2008. While this is a new store it is supported with the experience and knowledge of the other stores in the All World Shops group. That means Shop China has the same excellence in customer service and security that other AWS stores are known for.

Many of our shelves are a little empty at the moment but our staff are working hard to load the thousands of products we have as fast as possible. It is our goal to bring you the best quality products possible that are made in China. Of course there are so many great products that it is a challenge to list them in a way that they are easy for you to find. We will continue to work on ways to improve website navigation.

Our slogan is 'from China to the World' and this means our main focus is on achieving global reach for Chinese made consumer products. It also means that customers anywhere in the world can now get direct access to a wide range of products delivered direct from China. For the convenience of our international customers we are one of the few online shops in China where payment can be made by credit card.

We really enjoy listing such products and we think they will be popular with our global customers. Tibetan jewelry such as this bracelet show the bright colours that are typical of many of the Tibetan products:

Our bed sets come in a wide range of styles and are handmade for each order.
